EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Adrian on 10/20/2006.

The application has been amended as follows:

IN THE CLAIM

Re. Claim 1: After the phrase "terminal pad" as recited in line 9, insert new phrase --, wherein the electronic component drops toward the substrate based on its own weight in response to melting of the solid support--.

Cancelled the claim 20.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as the electronic component drops toward the substrate by its own weight in response to melting of the solid support. The closest reference of Nishida teaches that the electronic component is pressured by the bonding head to lower the electronic component in order to contact the substrate. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3729

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-4 are allowed.
